Our route in Home Health Care

Even in the new Century, while the home health care field is experiencing explosive expansion and growth **Med-Plus Home Health Care, Corp.** proudly, almost defiantly, adheres to a policy of strictly controlled growth and expansion.

We could grow much faster if we didn't care about Quality Control, compassion, dedicated care, hire our employees without diligent professional testing, screenings and evaluations. We could promote case managers and supervisors before they have proven they could handle the job responsibility. We could choose to pursue growth at the expense of quality control...but we haven't.

From the day we opened our doors we have responded to requirements in the Home Care Industry with careful consideration. Rather than being concerned with how big our Agency could grow, we focused on how we could provide the services that our clients and patients need without sacrificing quality.

Med-Plus Home Health Care, Corp. is operated in compliance with guidelines set forth under state and federal regulations. **Med-Plus Home Health Care, Corp.** is a Medicare certified, state licensed Home Health Agency, and Joint Commission Accredited.

Our goal is to provide accredited patient care that is well oriented toward the patient's specific needs. Our dedication to quality patient care is through our continuous quest to educate and train all agency personnel. Our staff is proficient in English, Spanish, and Creole. We provide coverage throughout all of Miami-Dade County.

A proved and knowledgeable guide for our case managers and Patient's Coordinators.
